### WHEAT MARKET.

Excited All Over The  
World.

EXCITING SCENES ON CHARGE

Bountiful Harvests In The  
North-west.

Dollar Wheat Is The Farmer's  
Slogan.

Excited Grain Market.

By Cable and Associated Press.  
BERLIN, Aug. 17.—The corn market to-day is excited. Opening quotations were, August rye 269 marks, September and October 253 marks; August wheat, 254 marks; September and October, 246.

Corn closed flat. August rye, 257 marks; September and October, 245; August wheat quoted on close at 246 marks; September and October, 241 marks, 50 pennings.

ANTWERP, Aug. 17.—The wheat market here is excited to-day. Wheat rose 8 francs per 100 kilos and rye, on a forward delivery, is quoted at 26 francs.

AMSTERDAM, Aug. 17.—The wheat market is excited to-day. November wheat advanced 10 guilders, and rye declined four guilders.

CHICAGO, Aug. 17.—The exciting scenes in wheat and corn, which characterized trading in the latter part of last week, were renewed at the opening of the Board of Trade this morning. Trading is just as wildly nervous as it was on Saturday; the bull fever is still on this morning and traders are inflamed with the prospect of higher prices as a result of excitedly higher cables. When the bell tapped for the opening of business, the pit at once became a pandemonium, out of which came these figures for December wheat inside of ten minutes, from 1.09½ to 1.13. This was the top figure on the early bulge. Then prices began to weaken, and at 10 o'clock, had declined to 1.07½; sellers; September corn higher at 8½.

Provisions are excited and higher. The bulge to 1.13 was accompanied by the wildest excitement and some sales were reported as high as 1.14. A succeeding period of weakness was the result with free selling by both longs and shorts. Conservative traders of both sides are satisfied that prices are too high for safety and far above the export basis. They must be brought together before the benefit of foreign shortage, on which the boom was founded, can be realized. The consequence of this was that prices reacted until 1.05 was reached. That was the lowest point of the morning; it reacted to 1.07; sold off to 1.06½, up to 8½, and at 11 o'clock, was comparatively quiet at 1.06. Other markets followed wheat, except rye, which had an independent strength, September selling to 1.10½. Corn, at 11 o'clock, was 63½, after falling back to 64½. Wheat continued weak at 12:15. December was quoted at 1.03½. September corn had fallen off to 63½.

NEW YORK, Aug. 17.—When the produce exchange opened this morning there was an anxious crowd of brokers present. Reports from Chicago, London, Liverpool, Paris and Berlin indicated an excited feeling and advances over Saturday's prices. When the gong sounded there was a rush to the wheat pit and pandemonium broke loose. The first bid for December was 1:17, an advance of 2½ over Saturday. September opened at 1:14½, an advance of 1½ and May at 1:20, an advance of 1½. Within five minutes after opening the excitement began to decrease and prices fell off to about Saturday's closing. There was no talk about rye and little interest taken in corn.

By one o'clock wheat was selling at 1.14½. Later in the day there was increased offerings to sell by foreigners who want to realize, and prices broke again sharply. The situation at the close was quiet feverish but at the lowest prices of the day, which were 2½ to 5 under the official close on Saturday.

ST. LOUIS, Aug. 17.—All trading on the exchange this morning was as previously agreed upon on settlements. No new trades are being made. December wheat opening at 1.08 sold up to 1.12, then started on the downward grade and 1.05½ was reached, and then sold up to 1.07; at 10:35 everything was quiet and no fears of a failure were entertained.

MINNEAPOLIS, Aug. 17.—There was a lively scene on 'change this morning when wheat started in at 1.04 and went gradually up to 1.08 and then declined, touching a dollar at noon.

BALTIMORE, Aug. 17.—The wheat market was active, strong and higher, at an advance of four cents.

PHILADELPHIA, Aug. 17.—The wheat market to-day is feverish and irregular and closed ¾¢ lower under free speculative selling in all grains.

Bountiful Harvest.

By Associated Press.

ST. PAUL, Aug. 17.—Harvesting is well under way all over the northwest and the promise of a big yield is more than fulfilled. Wheat averages from 25 to 30 bushels to the acre, and the increased yield from the increased acreage is 100,000,000 bushels minimum product for the Dakotas and Minnesota. Other grains are close to wheat. Oats especially are turning out well. Great trouble is experienced in procuring labor to handle the immense crop, and railroads are hard at work preparing to handle grain. Lack of storage facilities will compel the great majority of farmers to dispose of their grain soon, and transportation facilities will be taxed to their utmost. The weather for harvesting is all that could be desired.

World's Fair.

By Cable and Associated Press.

VIENNA, August 17.—The members of the traveling foreign Chicago Columbian Fair Commission, at present in this country, have met with success. Everywhere they were received with sympathy and with the assurance of solid support. Assurances are received from all sides of a fine display of Austrian works of science, mechanical works and works of art. On August 20th the members of the committee will meet at Amsterdam. They will spend a short time in Holland and Belgium before returning to London en route to the United States.

Contraband of War.

By Associated Press.

NEW YORK, Aug. 17.—Advices from Carthage, United States of Columbia, state that a dispatch was received there from Curacao of the Dutch Antilles, announcing the seizure by the government authorities of the colony of Curacao, of a cargo of munitions of war destined for Hayti. A portion of the cases containing war material had been partially sunk in the sea. These the government officials raised by dredging, while the rest of the cargo was seized aboard the bark. The whole was deposited in the arsenal there.

A New Metal.

By Associated Press.

PITTSBURGH, August 17.—A series of experiments by Thomas Harrington of this city into the properties and uses of pickled steel and manganese bronze resulted in the discovery of a new metal. The chief characteristics of the metal is that it obtains a very high tensile strength; is indestructible by corrosion, being impervious to acids, and that it can be wrought into spikes, nails, etc., while either hot or cold.

French Labor Strike.

By Cable and Associated Press.

PARIS, August 17.—A most serious labor agitation has broken out at the foundries near Avesnes, and troops have been sent to end the disturbances.

Rye Is Too High.

By Cable and Associated Press.

BERLIN, Aug. 17.—Owing to the excessive price of rye, the government has decided to use wheat in making bread for the army.

The Board of Equalization.

By Associated Press.

THE BOARD OF COUNTY COMMISSIONERS this morning sat as a Board of Equalization, examining the assessment roll and hearing complaints. Wm. Wright appeared before the Board and asked that his assessment be reduced \$500. Wm. Sartou asked for a reduction of \$500 on his real estate; Dan Hufaker asked for a reduction of \$1,000. The Board of Equalization took a recess until tomorrow and sat as a Board of Commissioners and transacted the following business:

Judge Haydon appeared before the Board and asked that a street and alley be opened from 5th to 6th street in Block 8 in the Western addition. The Commissioners entered an order that Washington street between 5th and 6th be opened and that the owner of the property be notified to that effect.

The Physicians Suggest.

To the Honorable the Board of School Trustees of Reno, Washoe County, Nev.—We, the undersigned practicing Physicians of Reno, would respectfully suggest to your honorable body, that in view of the presence of diphtheria in the community, that the reopening of the public schools at this time would greatly increase the danger of the disease becoming epidemic.

## SMELTER'S STRIKE

At Omaha Ends in a  
Failure.

SWISS RAILROAD SLAUGHTER.

The Situation is Serious in  
China.

A Little More Larceny at  
Little Rock.

Railroad Slaughter.

By Cable and Associated Press.

BERNE, August 17.—Yesterday another wholesale loss of life by a railroad accident occurred on the Juba Simpon railroad lines near the village of Zolokofen, not far from this city. A special train carrying a large number of excursionists from the country districts to this city on the way here run into the Paris express while side-tracked to allow the latter to pass. The accident resulted in the guards van at the rear of the excursion train and the passenger car being demolished and large number of passengers being killed. The exact number of dead and wounded is not known, but twelve corpses have already been recovered from the ruins, and it is known that many people have been seriously injured by the collision. No loss of life is reported among the passengers on the Paris express.

A wrecking train, carrying doctors and nurses together with a detachment of engineers, was despatched to the scene of the accident, and crowds of people started in the same direction. The majority of the passengers aboard the excursion train belong to towns in the vicinity of this city. It is thought no American travelers were among the killed.

The accident is thought to have been the result of carelessness of the railroad officials.

Further details from Zolokofen show thirteen people were killed and that eighteen were seriously injured and thirty others slightly.

A Little Larceny.

By Associated Press.

ST. LOUIS (Mo.), Aug. 17.—A special from Little Rock, Ark., says: J. L. Bay was arrested this morning on warrants sworn out by State Treasurer Movill, charging him with the larceny of \$1,000,000 State scrip. Bay was a clerk employed by bondsmen to investigate the books of the defaulting ex-Treasurer, Woodruff. Great excitement was created by the arrest.

The creditors of John Thyson, who failed Saturday, held a meeting this morning. Thyson is said to be short \$5,000 bushels of wheat. The meeting adjourned without taking any definite action.

Platte River Raging.

By Associated Press.

ST. JOSEPH (Mo.), August 17.—A special from the agency says a cloud-burst on the Platte river yesterday caused much loss of property. The river rose twenty feet and twelve or fifteen farms are ruined, houses, barns and crops being swept away. No lives are yet known to be lost. Another cloud-burst at the same place followed this morning, causing much more damage.

Chili Rebellion.

Special to the GAZETTE.

SAN FRANCISCO, Aug. 17.—A correspondent writing from Santiago, Chili, under date of June 21st, states that Balmaceda had issued twelve million dollars of 50-cent paper money, and that it is compulsory upon all to receive it. Balmaceda also issued a proclamation for the increase of the army to sixty thousand men.

Yellow Fever.

By Associated Press.

NEW YORK, August 17.—The Ward Line steamer City of Washington arrived this morning from Mexican ports and reports when she left Vera Cruz early in August the yellow fever was raging to an alarming extent in that city. Many deaths occurred during the last six weeks.

Italian Crops.

By Cable and Associated Press.

ROME, August 17.—Italian harvest reports indicate this year's crops will be equal to those of 1890. Recent rains have greatly improved the corn crop, which promises to be good. An abundant yield of wine from the grape crop is also expected.

Omaha Strike Ended.

By Associated Press.

OMAHA, August 17.—The trouble at the Omaha smelter is at an end. This morning the men agreed to return to work at the same terms as before and the officers of the smelter decided to start up at once.

Salton Lake.

Special to the GAZETTE.

SAN DIEGO, Aug. 17.—W. H. Patton, editor of the Banning Herald, who undertook an exploration to determine the source of the Salton Sea, going from Yuma down the Colorado river to the break in the banks, is in this city. In an interview he contributed some interesting information regarding the phenomenon. He says he is positive the lake will be permanent; at present it is falling, but each slight rise in the river adds to the volume of water in the lake, and now that a well defined channel has been washed out, the water from the river would flow directly to the lake instead of spreading all over the country. The break in the river bank is at an old lagoon about 17 miles south of Yuma in Mexican territory. From there to the lake the channel is from 100 feet to half a mile wide and of sufficient depth to carry an immense body of water to it. The country through which the channel has cut its way is a very rich and fertile sandy loam for miles and miles. The sand of the desert has been washed into the channel, leaving the soil exposed. The water had deposited vast quantities of quillie seed, and hundreds of thousands of acres are a waving sea of green pasture.

At one place a channel was found to pass between two rows of huge mesquite trees in a perfectly straight line for a distance of 20 miles. Between the rows of trees the water was 20 feet in depth, while on either side it had an average of but 5 feet. Patton asserts the trees and channel mark the line of an ancient irrigation ditch, but by whom used no man can tell.

In speaking of the general effects of the overflow, Patton said it would be both detrimental and beneficial. He said: "At Banning we had in a comparatively short time four rains; these were terrible rains in the mountains above Redlands and a heavy fall at Campo, all unprecedented at this time of the year, and I am satisfied they are the direct result of the salt lake. These rains come at a time when they are not needed, just in harvest time and when the rain crop is maturing. On the other hand it will bring into market and under cultivation an immense amount of territory hitherto unproductive and sterile. The water is amply sufficient for irrigating hundreds and hundreds of thousands of acres. At present about one-fifth of the water in the Colorado river is flowing through the channel into the lake at Salton; but with the next heavy rise I would not be surprised to see almost the entire volume of water in the river turned into this channel. At Yuma when we left, the thermometer in the boat registered 112° in the shade, but at no time during the five days we were sailing across the country did it rise above 82°."

Serious Situation in China.

By Cable and Associated Press.

SHANGHAI, Aug. 17.—There is no use of disguising the fact that a most serious state of affairs exists in this country over the agitation against foreigners and others, and the combined fleets of the powers may be called upon at any moment to take effective action, looking to redress for the outrages by the Chinese government. At present, a state of great excitement prevails, and increasing tension between the Chinese government and Ministers of foreign powers. From all appearances the former is obstinate in their refusal to redress the injury done foreigners during the recent riots. If the Chinese authorities do not yield to the firm demands of the Ministers, the powers concerned hostile action upon the vessels of the various nations represented in these waters is imminent. With such a state of affairs it is now known that foreign ministers are compelled to inform the Chinese government of a joint naval demonstration of an effective nature, in which the French, American, British and German squadrons will take a part, will be ordered in the near future, unless speedy reparation is made for the injuries, outrages and abuses complained of by the ministers of the powers.

Editors of California.

Special to the GAZETTE.

SAN DIEGO, August 17.—The Southern California Editorial Convention begins its semi-annual convention, lasting four days, at Coronado to-day. The majority of the members will not arrive until this afternoon. The formal exercises will not begin until late in the day.

Aeronaut Drowned.

By Cable and Associated Press.

ROME, August 17.—It is reported from Macerata that an aeronaut who made an ascension there yesterday was drowned by being thrown into the sea from his balloon.

Australian Bank Fails.

By Cable and Associated Press.

MELBOURNE, August 17.—The suspension of the British Bank of Australia is announced. Liabilities, \$800,000, half of which is owed to creditors in England.

Continuation Charged.

Special to the GAZETTE.

SAN FRANCISCO, Aug. 17.—In the United States Circuit Court to-day Attorney General Hart said that the attorney for the Chinese consulate of the Southern Pacific Co. had in the matter of Gee Chong Tene vs. the Southern Pacific Co., prepared a collusive case and the Court should not entertain it for a minute. Damages in the sum of \$10,000 are asked by complainant upon the allegation that he was denied the privilege of purchasing a railroad ticket from this city to Sacramento, and also that he was prevented from boarding a train for Sacramento. The case was brought after the Attorney General had caused the case against William MacAbbe, a ticket seller for the Southern Pacific Co., to be dismissed in the Police Court.

The complaint set up that the agent of the Southern Pacific Company proceeded in accordance with the provisions of the State Chinese registration law and demanded a certificate of registration as a necessary preliminary to the sale of the ticket, which provisions are in violation of treaties between the United States and China, and also of the constitution of the United States. Attorney-General Hart said there is no officer of the State at this time enforcing the Chinese registration laws. He had given his opinion, as Attorney-General, that the act will not take effect for one year, and that no Chinese person can be held guilty under the law if he fails to produce a certificate of registration until after the expiration of a year from the passage of the law. Judge Beatty decided the case to be heard next Monday.

Receiver Appointed.

By Associated Press.

WASHINGTON, August 17.—The Comptroller of Currency to-day appointed Wm. T. Atkinson of Hutchinson, Kan., receiver for the First National Bank of Kansas City.

Secretary Foster has gone to Cape May in response to a summons from the President.

Monday, August 17, 1891

San Francisco.

A gentleman well known in this State is contributing a series of editorial articles to the San Francisco Argonaut on the relationship of San Francisco and the people of the coast. The GAZETTE has taken occasion more than once to call attention to the selfishness of that city, which wants to see two dollars in sight for every one invested, and has advised our people to cut loose and look eastward for what we want, but as the Argonaut dishes it up in good shape, we reproduce the article:

The inhabitants of San Francisco should not imagine that such a city as theirs is simply a plot of ground laid out in lines by the surveyor and covered with houses by the builder to be filled with people whose chief destiny it is to accumulate and enjoy. A city is but one of the parts of a great whole, and its influence extends to the remotest corner that can be made tributary to it. It is the highest result of the development of its times. It is the fruit of the combined labor, intelligence and moral force of its age. It is the rose upon the tree, the flower of contemporary civilization, and depends for its existence, not upon the stalk alone, but upon the leaves, the roots and the ground around. If circulation is free, there is bounding life and abundant health, there is but and branch along the way. If there is bad ground near the root, if there are leeches among the leaves or vermin at the heart, the plant is poisoned and the air diseased.

To the city is gathered the genius, the wealth, the intellect of the neighborhood. It has the libraries, the museums, and the collection of treasure. It is the leaders of thought and action in every branch of human endeavor, and it is largely responsible for the condition of all the country tributary to it. It cannot escape its share, and upon the solution of the problems presented depend the fortunes, not only of its own citizens but of those in all the region that it reaches.

Taking this view of the case, it is proper to inquire whether San Francisco, as the center of activity in western America, is doing her duty; whether, with larger education which comes from contact with the outer world and which should give her definite ideas and better plans for State-building, she has done her share with those dependent upon her. Every new country has fresh problems to solve, and this coast has had more than usual. Some of those presented to us have been met in a manner not the most satisfactory. Our laws have been framed for other sets of conditions, and our methods were, perhaps, suited to the lands whence we came, but not to this. They have been awkwardly administered, and the expense in money and life is something appalling. Our hydraulic mines are permitted to invest many millions in ground and water rights, and to gather about them a large population, which built homes and towns with the savings of half a lifetime. Their operations proved detrimental to their neighbors in small sections, and the light resulted in the cessation of mining and the loss of half a billion dollars' worth of property. A little brains and labor would have turned the stream of sickness into the tules, and hundreds of thousands of acres would have been reclaimed. They would have the richest of our lands, lying in the heart of the State, and would have made homes for many thousands of people, besides adding much to our taxable property and to the commerce and the importance of the Coast. All this in addition to the twelve or fifteen millions of dollars in good red gold, which would have been added to the world's store by the work of the miner.

No city has suffered more by the loss of capital from the unfriendly attacks of vicious or designing persons. The courts, the newspapers, the legislatures, and all political parties by turns have had their dig, and many dollars have

gone to other parts for use. The hoarding of wealth in the cities has been a curse to California and all her neighbors. A dollar dancing through the country is a constant blessing, making things move and keeping up life and health. It is better than a million dollars tied up in a vault, to lead to congestion and stagnation. It is a reproach to our capitalists that they lack the disposition and the energy to investigate the merits of enterprises in the interior, and refuse to make loans on any property outside of a very narrow region around the bay.

The water-power of the Sierras is all the time calling for a chance. It still sings its merry tune, unbarred and unused, as it has since the first snow fell, and it seems likely to continue to do so for all time to come, so far as California enterprises are concerned. Of the thousands of dashing streams, the American river at Folsom and the Truckee river are the only ones on the coast where water-power is found in connection with railroad accommodations. The Truckee river falls from Tahoe to Pyramid two thousand five hundred feet in a hundred miles. From Truckee to Wadsworth, a distance of seventy miles, the fall is over seventeen hundred feet, and it runs alongside the overland road the whole way, with side tracks, saw-mills and villages every few miles. One would think that in a country destitute of coal, where it costs seventy-five dollars to develop each horse-power as against six and a half dollars in other places, this magnificent river would be used and some part of the merchandise now being brought many thousands of miles would be made near at hand, by people who could be reached and some of their wants supplied in exchange for their time and labor. Even the Comstock mines (managed and owned in San Francisco), although only thirteen miles from the Truckee, are shut down many weeks in every year, and hundreds of men thrown out of employment from lack of power to run the mills.

As a result of the traditional policy, Nevada has had her bowels ripped open and six hundred millions of treasure taken without a particle of return. There has been no effort to build up or to strengthen. It was all take and no give. Where there was not a certainty of a return of half a dozen times the original investment, nothing was done.

Nevada is at the bottom to-day, but she is trembling on the rise, and the weight of a hand will send her upward. No investment made with prudence can fail to be profitable, and yet if any man talks to the average Californian about making a home or putting a dollar into Nevada, he exclaims: "Nevada! don't go there; you can't make a living and you will have to leave." The commercial spirit is not strong in San Francisco, and many opportunities to develop trade are neglected. The spirit of '49 still dictates prices in too many cases, and superior accommodations are constantly being offered from other directions. The strictest integrity is a prime necessity in such matters, and every man who takes undue advantage, or manifests a disposition to be unjust or unfair, injures the city in which he lives. A liberal disposition in the community as a whole, combined with the advantages San Francisco has, should make her a great city.

We mention these things not in a spirit of fault-finding, but because the whole question is being forced upon the attention of this community, and demands consideration.

### California

**A Pioneer's Experience With Hood's Sarsaparilla.**  
"I am a pioneer in this country, having been here 30 years. Four years ago my little son Billy became blood-poisoned by impure virus in vaccination. His arm swelled terribly, causing great agony; physicians said the arm must be amputated, and even then his recovery would be doubtful. One day I read about a blood purifier, new to me, and was surprised to learn that it was prepared by C. I. Hood, with whom I used to go to school in Chelsea, Vt. I decided to have my boy try Hood's Sarsaparilla, and was much gratified when it seemed to help him. He continued to grow better as we gave him the Sarsaparilla, and having used 8 bottles is now entirely cured. As Hood's Sarsaparilla has accomplished such wonderful results, I recommend it all I possibly can." JEROME M. SKIFFER, Upper Lake, Lake Co., Cal.

The City Treasurer

Of Lowell, Mass., says: "The above is from my brother, whose signature I recognized. I am also glad to hear that Hood's Sarsaparilla, and to say that C. I. Hood & Co. are considered one of the most reliable firms in New England." VAN B. SLEASER, City Treasurer, Lowell, Mass.

**Hood's Sarsaparilla**

If your druggist does not keep it, send ten cents for a trial bottle or one dollar for full size, by mail free to California Cephaline Company, Reno, Nevada.

## CON STIPATION

Afflicts half the American people yet there is only one preparation of Sarsaparilla that acts on the bowels and reaches this important trouble, and that is Joy's Vegetable Sarsaparilla. It relieves it in 24 hours, and an occasional dose prevents return. We refer by permission to C. E. Elkington, 125 Locust Avenue, San Francisco; J. H. Brown, Petaluma; H. S. Winn, Geary Court, San Francisco, and hundreds of others who have used it in constipation. One letter is a sample of hundreds. Elkington writes: "I have been for years subject to bilious headaches and constipation. Have been so bad for a year back have had to take a physic every other night or else I would have a headache. After taking one bottle of J. V. S., I am in splendid shape. It has done wonderful things for me."

## Joy's Vegetable Sarsaparilla

Most modern, most effective, largest bottle same price, \$1.00, six for \$5.00.  
For sale by S. J. Hodgkinson, Reno.

JOTTINGS.

Miss Gibbs keeps a large stock of hat trimmings, consisting of flowers of every color and kind and at prices to suit all purses.

He drank and sighed "my great distress no longer lingers; the chambers of man's happiness is just two fingers." Beer 5 cents at Jake Becker's.

An Emendation—Sawyer—The proof of the pudding is in eating it. Dr. Spew—No, it isn't. It is in the digestion. Board at the Riverside hotel and "that'll be all right."

If you don't believe that time is money, examine your pocket-book after you have been having a "little time." If you want a puzzle get the Raccarat of C. A. Thurston.

From San Antonio.

Aug. HORNUNG, a well known manufacturer of boots and shoes at 820 Nolan St., San Antonio, Texas, will not soon forget his experience with an attack of the cramps which he relates as follows: "I was taken with a violent cramp in the stomach, which I believe would have caused my death, had it not been for the prompt use of Chamberlain's Colic, Cholera and Diarrhoea Remedy. The first dose did me no good, so I took a second dose, and before the doctor could get to where I was, I did not need him. This remedy saved my life. For sale by J. B. McCullough, Druggist."

The First Step.

Perhaps you are run down, can't rest, can't sleep, can't think, can't do anything to your satisfaction, and you wonder what ails you. You should heed the warning, you are taking the first step into Nervous Prostration. You need a nerve tonic, and in Electric Bitters you will find the exact remedy for restoring your nervous system to its normal, healthy condition. Surprising results follow the use of this great nerve tonic and alterative. Your appetite returns, good digestion is restored and the Liver and Kidneys resume healthy action. Try a bottle. Price 50c, at Wm. Pinniger's Drug Store.

A Cure for Mink Headache.

This distressing complaint is due to an inactive or sluggish liver with constipated bowels which deranges the stomach and disturbs the nervous system, causes dizziness and an oppressive dull pain in the head, often so severe as to prevent all rest or sleep. One of Dr. Gunn's Improved Liver Pills will relieve you of all the pain and misery about this, and will also correct the liver and stomach and regulate the bowels. While these pills are small, easily taken, and mild and gentle in their action there is no medicine made that will so effectively cure mink headache. 50 cents a box. Sold by J. B. McCullough.

A Little Girl's Experience in a Light House.

Mr. and Mrs. Loren Tresscott are keepers of the Gov. Light-house at Sand Beach, Mich. and are blessed with a daughter, four years old. Last April she was taken down with measles, followed with a dreadful cough and turning into a fever. Doctors at home and Detroit treated her, but in vain, she grew worse rapidly, until she was a mere "handful of bones." Then she tried Dr. King's New Discovery and after the use of two and a half bottles, was completely cured. They say Dr. King's New Discovery is worth its weight in gold, yet you can get a trial bottle free at Wm. Pinniger's drugstore.

A Sure Cure for Piles.

Itching Piles are known by moisture, like perspiration causing intense itching when warm. This form, as well as blood, bleeding and protruding, yield at once to Bosanko's Pile Remedy, which acts directly on the parts affected, absorbs tumors, allays itching and effects a permanent cure. Bosanko, Piles, O. Sold by S. J. Hodgkinson.

Encourage Home Industry.

And obtain immediate and complete relief for your aching head by using Cephaline, the greatest headache remedy. Kept at all drug stores.

Shiloh's Arnica Salve.

The best salve in the world for cuts, bruise, oozes, ulcers, salt rheum, fever sores, chapped hands, chilblains, corns and all skin eruptions and positively cures piles or no pay required. It is guaranteed to give perfect satisfaction, or money refunded. 15c or 25c per box. For sale by Wm. Pinniger.

Baby cried,

Mother sighed,

Doctor prescribed: Castoria!

THAT HACKING COUGH can be so quickly cured by Shiloh's Cure. We guarantee it. For sale by S. J. Hodgkinson.

WILL YOU SUFFER with Dyspepsia and Liver Complaint? Shiloh's Bile Beans is guaranteed to cure you. For sale by S. J. Hodgkinson.

SHILOH'S COUGH and Consumption Cure is sold by us on a guarantee. It cures Consumption. For sale by S. J. Hodgkinson.

SHILOH'S VITALIZER is what you need for Constipation, Loss of Appetite, Distress and all symptoms of Dyspepsia. Price 10c and 75c per bottle. For sale by S. J. Hodgkinson.

CROUP, WHOOPING COUGH and Bronchitis immediately relieved by Shiloh's Cure. For sale by S. J. Hodgkinson.

DIPHTHERIA.

A Wise Suggestion from District Attorney T. V. Julien.

RENO, Nevada, Aug. 17, 1901.

EDITOR GAZETTE: There is no mistaking the fact that we have diphtheria in our midst. Several well developed cases have been reported within the past week. The doctors and the press have advised that every precaution be taken to prevent the disease from spreading. This advice should be observed by all. Whether or not the disease is to become epidemic, at the present time, no one can tell. It is safest, however, to anticipate the worst and act accordingly.

The school room is too often the source from which epidemics start. Unless the order is countermanded by competent authority our public schools will open next Monday. Would it not be a commendable act, as well as precedent set on the part of the Trustees to countermand the order and direct that the schools be not opened for at least another week, or until the result of our diphtheritic visitation shall have been definitely determined, and the danger line passed. It is particularly desirable that there should be a full attendance at the opening of the school, which will surely not be the case should the schools open next Monday. The writer knows of a number of parents (himself among the number) who deem it imprudent and unwise to risk their children in a crowded school room at this time. No more necessary or greater precaution can be taken to quell or prevent the possible spread of the disease, than to countermand the order requiring the schools to be opened next Monday. For the safety of the little ones whose lives are in danger, I hope the Trustees may see their way clear to make the order.

T. V. JULIEN.

A PIONEER PARALYZED.

A Once Active Man Stricken Down With Old Age.

The Revue of the 14th inst. says: W. Whittier was found by Robert Scott, in his cabin at Birch Creek last week, in a helpless condition, caused by a stroke of paralysis, afflicting the lower limbs. He was immediately brought to town and Dr. Huntman summoned, who corroborated the affliction as paralysis. At this writing Mr. Whittier appears to be more cheerful and on the improve, but when his age, three score years and ten, is taken into consideration, it is somewhat doubtful of his recovery. Another of Nevada's old pioneers, subjugated by time, toil and privation. Mr. Whittier went to Reese river in 1863, and has always borne an excellent reputation.

KILLED BY A TRAIN.

G. C. Campbell Run Over Near Essex and Instantly Killed.

G. C. Campbell, a Canadian Frenchman, 30 years of age, and a teamster for S. A. Hamlin at Essex, was run over and killed by the eastern bound freight train No. 9, last evening at or near Essex. Campbell had been to Verdi and filled himself with whisky and started home. He staggered on the track immediately in front of the train which was on a down grade and under full head and was hit and thrown about thirty feet into the air, receiving injuries from which he shortly died. No blame can be attached to any one, as Campbell was a victim of his own folly.

PINE NUT.

No Occasion for Anyone to Lose His Head Over the Zera Mine.

Now comes the Carson Appeal and tells the pathetic tale that Zera, the Pine Nut prospector, gets his gold in some other place than that he has had the public to believe. The Gazette takes but very little stock in Zera or his "find," and thinks the Pine Nut boom will rebound to the State's injury when the truth is known. For twenty-five years there has been at odd times more or less gold found in the hills around Pine Nut, but not enough to justify any excitement at any time. The Examiner has taken occasion to boom the camp, but just where it draws its inspiration from it is hard to say.

A Buoy in the River.

A buoy has been placed in the river above the iron bridge, marking the location of a big boulder, which latter is now, however, in plain sight, as the water is low. It isn't a whistling buoy, but it whistled through the air when it landed there. It was a pitch-fork, stuck in a load of hay that was moving across the bridge, when the fork caught in a cross beam, doubled backward, sprung loose and went over the bridge like a rocket. It plunged to the bottom where it planted its tines firmly under a boulder, leaving the handle just above water, and bobbing away as serenely as though made for that purpose.

Arrested for Hobbbery.

The Silver State of the 15th inst. says: Sheriff Fellows arrested a man named John Rathay at Battle Mountain yesterday who is wanted at Kellon, Utah, for robbery. It appears that Rathay is a stage driver and a man entrusted him with \$500 to deposit with Wells, Fargo & Co. The temptation to get away with the money was more than he could withstand, and he boarded a train and started west. When arrested he had all the money except six dollars in his possession. Utah officers will be here next Tuesday and take him back for trial.

A Little Blaze.

An incipient fire was caught in time on Saturday night and extinguished by a few buckets of water by Dave McFarland and others. It caught over a chryslite in a house adjoining the Weiland brewery, but fortunately was discovered in time to prevent an extensive fire.

Attention, Firemen.

Members of Engine Co. No. 6, are hereby ordered to assemble at 8 o'clock p. m. Tuesday, August 18th, at the engine-house. By order of J. FRANK, Chief.

(Journal please copy.)

BREVITIES.

Local and General Intelligence.

Don't forget the dance at Glendale next Saturday night.

Call at the Merchant's Exchange for cool summer drinks.

The Carson club won the baseball game at Steamboat yesterday.

Social feeds as big as an elephant have broken out at Bar Harbor.

Another member of the Fraser family is down with the diphtheria.

A rancher in Mason valley claims to have raised twenty-five tons of potatoes to the acre.

The recent census has shown that there are in England and Wales 900,000 more women than men.

The astonishing statement is made that the grain yield of South Dakota will average \$1,000,000 to each county.

Go to John Bell's shop and take a bath in one of his elegant porcelain tubs and you will feel like a new man.

On Tuesday, the 11th inst., in New York City, twenty deaths occurred from the great heat prevailing, while as many more were prostrated.

It is stated that the London banks have on deposit some \$600,000,000, while the actual cash deposit on hand does not exceed \$28,000,000, or less than 5 per cent.

Whatever be the state of colored photography, a process for photographing in colors has been patented in London, and the company is about to begin business.

The Carson News says: Miss Clara Mather, a recent graduate of the Carson High School, Class of '91, will depart for Reno, to accept the position of teacher in the University.

The Bear Valley Company has commenced its work in San Bernardino county of building a new and expensive dam. Two years' time will be required to finish the work.

The funeral of the late George W. Mershon took place this afternoon at 2 o'clock from the residence of Dusen Church, Rev. J. A. Broadway of the Methodist Church officiating.

The Truckee Republican of the 15th inst. says: The K. of P. institution of a Uniform Rank last night was a success, 36 members being initiated. After the work was done all repaired to the Sherill House and partook of a sumptuous banquet.

Thomas Oxnard, the active principal in the great Sugar Trust fight which has been waged against the Spreckels Bros. of this city, and whose son represents the interests of the Sugar Trust on this coast, died in San Rafael Thursday.

The overland express train yesterday morning was detained here fully half an hour in consequence of a refractory coupling on the dining car, which held on to the Virginia sleeper like death to a dead negro, a habit that has been very pronounced for some time past.

The special car Grassmere, conveying Oelrichs and wife east, was named with a will crew, from a conductor, resident in silver buttons, badges, cap and uniform, to a porter, cooks, waiters, maids and a little Japanese dog, attached by a chain to Mrs. Oelrichs as she promenade the platform.

A Mexican woman one hundred and five years of age, Mrs. Perfecta Rodriguez, went to Stockton from La Grange, Stanislaus county, the other day and filed her final entry on 160 acres of land. The old lady appears to be still hale and hearty. She was married several times and has twenty-five children.

Dr. Yellowstone's May Apple Bitters Co., which just left our city, is the only medicine company ever coming to our town that offered no medicine for sale on the street. The May Apple Bitters is already pronounced a wonder by many of our citizens. It is sold exclusively at McCullough's drug store.

A Reno Man Heard From. The Salt Lake Tribune of the 13th inst. says: W. M. Haveron is again at his old tricks. This time it is a girl, and the little stranger arrived at the family residence, 479 West Third South street, yesterday morning. The happy father was at one time a prominent business man of Reno, Nevada, but is now the guardian angel of an engine which draws a train between Lehi and Fronton on the Salt Lake & Western Railroad, a branch of the Union Pacific.

Mauzy Indians.

The Lyon county Times of the 15th inst. says: Mrs. Browder of Downeyville, Nye county, has written a letter to her brother in Virginia City, asking him to send fifty rounds of ammunition, as the Indians in her neighborhood are getting very insolent. There are not over half a dozen people living in Downeyville, and they are far removed from other settlements.

To the Public.

CARDO MILLS, Texas, June 5, 1891.—From my own personal knowledge, I can recommend Chamberlain's Colic, Cholera and Diarrhoea Remedy for Cramps in the stomach, also for diarrhoea and flux. It is the best medicine I have ever used and the best selling, as it always gives satisfaction. A. E. SEARS. 25 and 30 cent bottles for sale by J. B. McCullough, druggist.

For Over Fifty Years.

Mrs. Winslow's Soothing Syrup has been used for children teething. It soothes the child, softens the gums, always allays the pain, cures wind colic, is the best remedy for Diarrhoea. Twenty drops a bottle. Sold by all druggists throughout the world.

Highest of all in Leavening Power.—U. S. Gov't Report, Aug. 17, 1899.

# Royal Baking Powder

ABSOLUTELY PURE

PERSONALS.

Professor Ring returned from Elko last evening.

Arch Farrington left for San Francisco last night.

Powell Fredrick left to-day on the 4:30 train, going west.

James Agler and wife passed through from the west this morning.

Wm. H. Mills of Cortez passed through last evening for San Francisco.

E. J. Parkinson of the Carson Tribune passed through returning home this morning.

Charles Colburn, corner of the Carson Mint, passed through yesterday returning from California.

George H. Hunt, Master Mechanic of the Wadsworth railroad shops, passed through from the west this morning.

T. E. Galm, Superintendent of the Columbus Borax Company, passed through on Sunday returning from Monterey.

Dr. E. C. Phelps returned from his visit to Modesto, Cal., yesterday morning, bringing over with him his sister, Miss Hattie Phelps, who comes on an extended visit.

W. L. Taylor of Carson and J. M. Gile and James H. Donovan of Virginia City passed through this morning going to Ogden to attend the Grand Lodge of A. O. U. W.

Henry Whistler and family and Abe Smith and family returned Saturday from a week's outing at Pyramid Lake.

They caught during the week about 400 pounds of fish each.

Herman Oelrichs and wife passed through here on Sunday going east in his private car Grassmere, which was sent out from New York to Monterey for them. During their stay at the latter place his wife was invisible to society.

A Reno Man Abroad.

The Salt Lake Tribune of the 13th inst. mentions a Reno man as follows: Sol Levy, a prominent merchant of Reno, Nev., is in the city, having stopped over to see the sights of Zion while en route to New York, where he goes to lay in his supply of fall and winter goods. Mr. Levy is one of the most enterprising citizens of western Nevada and conducts the largest dry goods establishment in that section.

A Mexican War Veteran.

The Inyo Independent of the 14th inst. chronicles the illness of a former Superior Judge of that county. It says: "Last night about 9 o'clock Dr. J. J. Woodin was called to attend Judge Hannah. He has been failing considerably lately and last night medical services were required."

Judge Hannah is a veteran of the Mexican War, and age is probably telling upon him.

Rather Spring from the Fountain Head.

Arthur McEwen, in his last syndicate letter, reports Senator Jones at the Hoffman House, New York, moping the perspiration from his face and saying: "I'd rather be a tramp in San Francisco than a millionaire in New York." It is quite refreshing to note the Senator locating himself so near "his people."

Another Case.

Morris Davis was taken very ill Saturday night and it took three or four men to keep him in bed. Yesterday morning he had a well-developed case of diphtheria. He still continues out of his head, but Dr. Bergstein, under whose watchful eye the patient is, is doing all that is possible to save his life, but fears the worst.

Diphtheria Patients.

Yesterday morning Robbie, the oldest one of the Fraser children, was taken down with the diphtheria, but it was of a mild type so far as could be judged. Of the eight children two have died with the disease, and all of them have been afflicted with it, Robbie being the last one to take it.

Make Yourself a New Body.

Purge away the old, diseased and worn out body, said Dr. Brandreth. Replace the diseased matter of the system with good, simple food and thus build up a new and sound body in place of one feeble and diseased. Every man should know that he must be "renewed" at least once in two or three years, else he would soon break down completely. This renewing process is easily brought about by purging with Brandreth's Pills. They put new life into old bodies.

Brandreth's Pills are purely vegetable,

absolutely harmless and safe to take at any time.

Sold in every drug and medicine store, either plain or sugar coated.

For Over Fifty Years.

Mrs. Winslow's Soothing Syrup has been used for children teething. It soothes the child, softens the gums, always allays the pain, cures wind colic, is the best remedy for Diarrhoea. Twenty drops a bottle. Sold by all druggists throughout the world.

A "Wave" Personal.

The San Francisco Wave contains the following:

"C. C. Wallace, somewhat of a capitalist and considerable of a politician, having from Eureka Nevada, was among the sojourners at the Del Monte Saturday. Mr. Wallace is a partner of C. C. Fowning and also of J. Fowning, the powder man of this vicinity."

True, Mr. Wallace is "considerable of a politician," but the GAZETTE has never heard him accused of being "somewhat of a capitalist." Mr. Wallace and Mr. Fowning may have struck up a political partnership for all the GAZETTE knows, but in nothing else.

A Bald-Headed Fish Story.

Editor Mason of the Truckee Republican and family are rusticated at Sierra Valley, and the "devil" and Prof. Baugh are editing the Republican. The two editors do very well relating among other stories a tale of a triple-jawed fish caught at Independence Lake by Dr. Fouda. The third jaw is provided with teeth, and the fish has two throats.

An Invalid Judge.

The Inyo Independent of the 14th inst. says: Superior Judge Geo. M. Gill will leave to-morrow morning for San Francisco for medical treatment. While there he will consult the ablest physicians and specialists in regard to his ailment.

Judge Gill has been for some years a sufferer from rheumatism in its most aggravated form.

How's Your Liver?

A very unnecessary question to ask a man whose skin and eyeballs are suffused. Of course his tongue, too, is furred, bowels constipated, head bothered with aches, right rib region plagued with constant uneasy sensations. These you may take for granted, although he may not particularize them, because you are among the invariable accompaniment of liver trouble. Are they chronic? If so, you may be sure he does not, as he ought to do, "take Hostetter's Stomach Bitters, the leading regulator of liver that is out of order. Commend it to them as highly as you please, you can't say a word too much in its behalf. Sick headaches, constipation, nausea, dyspepsia and the yellow hue of the skin speedily depart when this reliable corrective is resorted to; malaria, rheumatism and grippe are also among maladies which it remedies and prevents. A wine-glassful three times a day confers appetite and digestion.
